

SCHOOLWIDE SOCIAL AND EMOTIONAL LEARNING SOLUTION ROOTED IN LEARNING TO PRACTICE LOVE IN ACTION

Imagine the humanity of tomorrow, based on a system of **trust** and **respect**, where organizations are led with **honesty**, resolving conflicts with **empathy** and **humility**; where we are taught to **forgive**; where we express our concern for one another through **solidarity** and **caring** actions; where we celebrate being **vulnerable**; where we extend our **compassion** to share our suffering; where we **communicate** clearly and candidly; where we value **patience** as we understand that important things take time; where we practice **gratitude** for all the small daily joys; where our **liberation** is tied to each other's, and where we never lose **hope** and use it as a guiding light through life's journey.

This is the future that the Lovescaping solution envisions by transforming schools into places where we systematically learn to practice love in action by teaching the behaviors accompanied with each one of Lovescaping's pillars. **We need a new way, a Lovescaping way!**

Lovescaping Framework and Pillars results in the mastery of CASEL's core competencies.

WHAT MAKES LOVESCAPING UNIQUE?

Our systematic approach is rooted in the belief that an SEL initiative doesn't work without transforming teacher's mindsets. We recognize that to change mindsets, we need to touch hearts. Teachers need to feel, breathe and live Lovescaping in order to embody and model Lovescaping for their students.

- Lovescaping uses Backwards Planning and is Objective Driven.
- Students become collaborative, responsible, problem-solver Lovescapers who build a just world.
- Through experiential, project-based and service learning, students experience and practice the pillars of Lovescaping.

Lovescaping is aligned with the most up-to-date brain science research on teaching and learning, the neuroscience of education and best practices around trauma-informed care, ACEs (Adverse Childhood Experiences) and secure attachment theory.

Lovescaping involves everyone in the learning community and is made up of the following components:
